

This architectural floor plan depicts a large, multi-story building with a complex internal layout. The central portion of the plan is dominated by a large, open hall or atrium. To the left and right of this central space are various rooms, including what appear to be offices, meeting rooms, and service areas. A prominent staircase is located on the left side of the plan. The bottom of the plan shows a large parking lot with numerous parking spaces. The plan is heavily annotated with technical details, including room numbers (e.g., 1AP21C1, 1ALZ1C1, 1AP22C1), electrical symbols, and mechanical specifications. A small inset map in the top right corner provides a broader context of the building's location within its surrounding environment.
